INDEX TO ILLUSTRATIONS.

A great open-air telescope, Plate X.....Op. 257, 297
Apparent path of Halley's comet, *Wm. F. Rigge*.....Op. 168
path of Halley's comet across the sun's disk, May 18, 1910..... 240
paths of Halley's comet, Mars, and Saturn during January and February, 1910..... 50
paths of the planets for 1910.....43, 44
Chart of Nova Sagittarii..... 564
of the solar eslipse, May 8, 1910..... 40
of the solar eclipse, Nov. 1, 1910..... 42
showing the distribution of nebulae, which, from their spectra are believed to be gaseous..... 547
showing the distribution of the globular clusters..... 546
showing the distribution of the spiral nebulæ..... 545
Charts of Mars in 1909, *E. M. Antionadi*.....62,63
Color values of illuminants..... 344
Curious aspect of the head of Halley's comet, June 8, 1910, *Luis G. Leon*, Plate XX .....Op. 428
Curves showing proportions of fundamental colors composing daylight..... 337
showing variation of the green and blue, with a variation in voltage upon incandescent lamps..... 346
Diagram of orbit of comet *a* 1910..... 179
Diagrams of the orbit of Halley's comet, *Joseph Wilczewski*....257, 259, 260, 261
Double-slide plate-carrier in principal focus of 60-inch reflector, Plate IV.Op. 65
Drawings of comet *a* 1910, *A. E. Douglass*..... 162
Gore, John Ellard, Plate XXVI.....Op. 519
Halley, Edmund, Plate XIV.....Op. 357
Halley's comet 1835-36, Plate XV.....Op. 360
comet to the naked eye, *Luis G. Leon*, Plate XVIII.....Op. 422
comet, Venus and a meteor trail, photographed at Lowell Observatory, May 13, 1910, Plate XXII.....Op. 453
Huggins, Sir William, Plate XVII.....Op. 387
Isographic projection of the northern celestial hemisphere, Plate XXVII..Op. 534
Jets in the head of Halley's comet as sketched by *H. C. Wilson*..... 477
Laboratory photographic tests, *E. D. Roe, Jr.*, Plate IX.....Op. 193
Light curve of SY *Cassiopeiae*..... 630
Lunar photographic telescope, *R. W. Wood*, Plate VII.....Op. 71
Members of the fourth solar conference, Plate XXIV.....Op. 489
Meteors on May 6, 1910..... 578
Observatory of D. E. Hadden..... 598
Orbit of comet *b*. 1910..... 562
Pencil sketches of Mars and Saturn..... 573
Perseids of 1910..... 576

Photograph of comet *a* 1910, *N. Barden* 303
of Halley's comet, May 3, 1910, *E. E. Barnard*, Plate XII....Op. 321
Photographic chart of M 92, *E. E. Barnard*, Plate I.....Op. 1
Photographs of comet *a* 1910, *C. H. Gingrich*, Plate VIII.....Op. 129
of Halley's comet, *D. W. Morehouse*, Plate XVI.....Op. 369
of Halley's comet, *D. W. Morehouse*, Plate XIX.....Op. 426
of Halley's comet, *C. H. Gingrich*, Plate XXI.....Op. 432
of Halley's comet by *H. D. Curtis*, June 6 and 7, 1910, Plate XV .....Op. 505
of Jupiter, *J. H. Reynolds*, Plate XI.....Op. 318
Plan of clock vault of U. S. Naval Observatory..... 101
of thermostat 103
Positions of Halley's comet with reference to the planets in 1909-10, *C. H. Gingrich* 48
Pritchett, Carr Waller, Plate XIII.....Op. 348
Region about Mare Humorum and Gassendi, *Messrs. Loewy and Puiseux*, Plate XXIX .....Op. 585
Schiaparelli, Giovanni Virginio, Plate XXIII.....Op. 456
Sixty-inch reflector mounting in erecting shop, Plate II.....Op. 65
reflector mounting in dome, Plate III.....Op. 66
Sketches of comet a 1910, *H. C. Wilson*.....177, 178
of the tail of Halley's comet.....429, 430, 431, 432
of the jets in the head of Halley's comet, *H. C. Wilson*..... 477
Spiral Nebulæ photographed at Lick Observatory, Plate XXVIII.....Op. 536
Steel building and dome for 60-inch reflector, Plate V.....Op. 66
Snapshots of the members of the fourth solar conference.....490, 491, 493, 494
Sun-dial or helio-chronometer, The new.....608, 609
Sun-spots, Drawings of, *W. F. Carothers*..... 644
The 150-foot tower telescope at Mount Wilson..... 496
The 60-foot tower telescope and the Snow horizontal telescope at Mount Wilson 497
The Swasey Observatory, Granville, O..... 481
Ultra-violet light photographs, *R. W. Wood*, Plate VI.....Op. 69

GENERAL INDEX TO VOLUME XVIII.

Abell, E. W., Halley's comet with a small telescope..... 243
Meteors from Halley's comet on May 6..... 422
Accurate measurement of photographs, *Edward C. Pickering*..... 331
Achromatic and apochromatic tests, *E. D. Roe, Jr.*..... 193
Aitken, R. G., Note on the masses of visual binary stars..... 483
the relation between the separation and the magnitude of visual double stars..... 549
Albrecht, Dr. Sebastian, elected astronomer at Cordoba..... 449
Algol, Irregularities in the motion of the satellite of..... 565
Amateur astronomy at Toronto, *A. R. Hassard*.....382, 446
speculations 316
Amateur's observatory, An, *David E. Hadden*..... 597
An astronomer poet, *Frederic Campbell*..... 452
Andrews, A. B., the black drop..... 18
Antionadi, E. M., the faintness of the markings and the yellowness of the planet Mars 62
Are space and time really infinite? *William H. Pickering*..... 420
Argo Navis 636
Asteroids, the distribution of the, *Samuel G. Barton*..... 151
the number of..... 646
Astronomical and Astrophysical Society of America, the eleventh annual meeting, *Frank Schlesinger*..... 581
phenomena in 1910, *H. C. Wilson*..... 40
theory of the molecule and an electronic theory of matter, *Severinus J. Corrigan*..... 32
Atmospheric refraction near the horizon, *George C. Comstock*..... 90
Aurora, Observation of an, in Kennebunk Beach, Me., *Horace C. Levinson*.. 579
of the, *Frederick C. Leonard*..... 643
of March 27, 1910, *Wilbur A. Coit*..... 641
Baker, Robert H., Spectoroscopic and visual binaries..... 401
Barden, N., Photograph of comet *a* 1910..... 303
Barnard, E. E., Comet *a* 1910..... 433
Notes on the appearance of Halley's comet..... 113
On the motion of some of the stars of Messier 92 (Hercules) 3
Photographic observations of Halley's comet..... 321
Barr, J. Miller, Some interesting spectroscopic binaries..... 600
Bartlett, Arthur K., Distances and motions of the stars..... 13
Drifting of the Sun's family..... 537
Sirius, the dogstar..... 81
Barton, Samuel G., The distribution of the asteroids..... 151
Bauder, Paul F., Quality of light..... 334
Binaries, Spectroscopic and visual, *Frank Schlesinger* and *Robert H. Baker*.. 401

Black drop, The, *A. B. Andrews*..... 18
Blair, G. B., A substitute for the cross-staff..... 190
Length of tail of comet *a* 1910..... 181
Brashear, Phoebe Stewart, obituary..... 581
Brett, O. C., Sunspots on May 19..... 445
Halley's comet, April 20, 23 and 26..... 445
Brooks' periodic comet, *Ralph E. Wilson*..... 605
Campbell, Frederic, An astronomer poet..... 452
Campbell, W. W., Note concerning the radial velocity of Procyon..... 316
Radial velocity of Polaris..... 315
Carothers, W. F., Graphic solar discs..... 350
A remarkable sun-spot, Oct. 23, 1910..... 646
New observatory 314
Clock vault of the U. S. Naval Observatory, *Edgar D. Tillyer*..... 100
Coit, Wilbur A., Aurora of March 27, 1910, at Wolfville, N. S..... 647
Comet and asteroid notes.....49, 112, 174, 238, 302, 369, 426, 505, 561, 628
Comet d'Arrest observed..... 507
Comet, Halley's, see Halley's comet.
Tempel, 1873 II, elements and ephemeris..... 174
1883 II Ross, Definitive orbit of..... 371
1889 V, Brooks' periodic rediscovered..... 563
Ralph E. Wilson..... 605
1890 VII, Spitaler, New elements..... 49
Faye's periodic 628
e 1909 Daniel.....51, 112, 175, 238
a 1910.....117, 118, 175, 180, 181, 238, 239, 302, 371, 433
Drawings of, *A. E. Douglass*..... 162
The discovery of..... 239
Photograph of, *N. Barden*..... 303
Photographs of, *C. H. Gingrich*.....Op. 129
b 1910 Metcalf.....506, 507, 561, 562
formation, A theory of, *Chas. L. Early*..... 442
Comet's tails, two types of, *William H. Pickering*..... 314
Comstock, George C., Atmospheric refraction near the horizon..... 90
The passage of Halley's comet, May 18..... 370
Condition for a maximum, *Arthur B. Turner*..... 153
Cooke, W. E., The new sun-dial or helio-chronometer..... 607
Cordiero, F. J. B., The tilting of the Earth's axis and the glacial epochs..... 201
Corrigan, Severinus J., An astronomical theory of the molecule and an electronic theory of matter, IV..... 32
Cosmical Evolution, Some recent discoveries in, *T. J. J. See*..... 532
Crommelin, A. C. D., Ephemeris of Halley's comet..... 182
Cross-staff, A substitute for the, *G. B. Blair*..... 190
Curtiss, R. H., Second elements and ephemeris of comet *a* 1910..... 302
Daniel's comet e 1909..... 112
D'Arrest's periodic comet, elements and ephemeris..... 306
comet observed 507
Darwin's graphical method of representing the past history of Earth and Moon under the secular action of tidal friction, *T. J. J. See*..... 24
Davis, John F., The Cemetery of the Gods..... 128
Dean, John Candee, Halley's comet and the church..... 295

Determination of standard time, *C. H. Gingrich*..... 617
Distances and motions of the stars, *Arthur K. Bartlett*..... 13
Distribution of the asteroids, *Samuel G. Barton*..... 151
Distribution of nebulæ and globular star clusters, *E. A. Fath*..... 544
Dole, Robert M., The Perseids 1910..... 576
Dotson, H. P., Another who saw Halley's comet in 1835..... 256
Double stars, New, *E. D. Roe, Jr.*..... 354
New, and double star work, *E. D. Roe, Jr.*..... 554
The relation between the separation and magnitude of visual, *R. G. Aitken*..... 549
70 Ophiuchi, orbit..... 190
Σ 1768, orbit..... 192
Douglass, A. E., Drawings of comet *a* 1910..... 162
Places of comet *a* 1910..... 238
Drawings of comet *a* 1910, *A. E. Douglas*..... 162
Drifting of the Sun's family, *Arthur K. Bartlett*..... 537
Duerler, Jr., G. A., Transit of Jupiter's satellite I..... 367
Dunn, Frederic Stanley, The Julian star..... 164
Eadie, John H., Passage of Halley's comet May 18..... 445
Transit of the comet of 1819..... 304
Early, Chas. L., A theory of comet formation..... 442
A remarkable cloud formation..... 639
Eclipse of the Moon Nov. 27, 1909.....60, 61
Ely, Owen, What is the ether?..... 525
Eros, Opposition of, in 1910..... 251
Ether, What is the, *Owen Ely*..... 525
Fath, E. A., The distribution of nebulæ and globular star clusters..... 544
The sixty-inch reflector of the Mount Wilson Solar Observatory 65
Flint, Albert S., The passage of Halley's comet, May 18..... 370
Galactic system, On the..... 316
Gingrich, C. H., Photographs of comet *a* 1910, Plate VIII.....Op. 129
Photographs of Halley's comet, Plate XXI.....Op. 432
The determination of standard time..... 617
Goodbread, David, Halley's comet..... 576
Gore, John Ellard, *Hector Macpherson, Jr.*..... 519
Gore, J. E., Halley..... 253
Goss, Bernard L., New form of reflecting telescope..... 443
Graphic solar discs, *W. F. Carothers*..... 350
Hadden, David E., An amateur's observatory..... 597
Halley, *J. E. Gore*..... 253
Halley and his comet, the story of, *Ralph E. Wilson*..... 357
Halley's comet .....50, 51, 115, 116, 182, 191, 241, 242, 304, ...305, 369, 372, 426, 427, 429, 430, 431, 433, 445, 453
An historical examination of the connection of Calixtus III with, *William F. Rigge*..... 214
and the church, *John Candee Dean*..... 295
Dr. Curtiss' photographs..... 505
Ephemeris of, *F. E. Seagrave*..... 627
in Mexico, *Luis G. Leon*..... 428
Near approach to Venus, *Geo. M. Searle*..... 114
Notes on the appearance of, *E. E. Barnard*..... 113

Observations of, *Rose O'Halloran*..... 453
Observations of, *Helen Swartz*..... 431
Observations of, *Joel H. Metcalf*..... 433
Observation of, *Wm. E. Sperra*..... 427
Observing from Mt. Teneriffe..... 305
Perturbations of 182
Photographs at Lick Observatory, Plate XXV..... 243
Photograph at Lowell Observatory, Plate XXII.....Op. 453
Photographic observations of, *E. E. Barnard*..... 321
Photographs, *D. W. Morehouse*.....370, 426
Photographs, *C. H. Gingrich*, Plate XXI.....Op. 432
Probability of a transit, *George M. Searle, C. S. P*..... 61
Radiant point for meteors from, *O. C. Wendell*..... 306
Sketches of the jets in the head, *H. C. Wilson*..... 477
Suggestions for its observing, *William H. Pickering*..... 129
The apparent path of, *William F. Rigge*..... 165
The length of the tail of..... 506
The passage of, May 18..... 370
The real and apparent positons of, during its period of greatest importance, *Joseph Wilczewski*..... 257
The tail of..... 183
The transit of, May 18..... 240
with a small telescope, *E. W. Abell*..... 243
Willis L. Barnes..... 116

Sun-spot observations, *C. E. S. Palmer*..... 579
1909, Resumé of,*Anne Sewell Young*..... 128
Sun-spots, the influence of, upon climate, *Andrew H. Palmer*..... 8
Swasey Observatory, Denison University, Granville, O., *Ambrose Swasey*.... 480
Swartz, Helen M., Observations of Halley's comet..... 431
Swift, Dr. Lewis, An astronomer poet..... 452
Telescope, A great open-air, *S. A. Mitchell*..... 296
The largest in the world..... 252
The event of 1984, *N. W. Mumford*..... 285
Theories of molecules and of matter, *Severinus J. Corrigan*..... 32
The Sun, *Alice Berlingett*..... 171
Tillyer, Edgar D., The clock vault of the U. S. Naval Observatory..... 100
Tilting of the Earth's axis and the glacial epochs, *F. J. B. Cordiero*..... 201
Todd, Dr. Wm. G., Saw Halley's comet in 1835..... 127
Total eclipse of the Sun May 8..... 251
May 8, 1910..... 368
of the Moon May 23..... 251
Transit of Halley's comet May 18..... 240
Transit of Jupiter's fourth satellite, *George F. Nolte*..... 574
Transit of Jupiter's satellite I..... 367
Transit of the comet of 1819, *John H. Eadie*..... 304
Turner, Arthur B., The condition of a maximum..... 153
Uranus, Observations of, *Frederick C. Leonard*..... 638
Variable stars, Approximate magnitudes of.....
.....58, 123, 187, 249, 311, 380, 434, 508, 567, 630
Maxima of short period, not of the *Algol* type.....
.....56, 122, 185, 247, 309, 378, 435, 511, 570, 634
Minima of *Algol* type..54, 119, 184, 246, 308, 375, 438, 509, 568, 632
The Heis-Krueger observations of, *Paul S. Yendell*..... 516
New elements of 566

Variable Stars *(Continued)*
TV *Andromedae* 566
21.1909 *Andromedae* 53, 126
29.1910 *Andromedae* 313
30.1910 *Andromedae* 313
31.1910 *Andromedae* 313
32.1910 *Aquilae* 374
147.1907 *Arietis*, elements 244
RY *Aurigae*, new elements 507
RR *Aurigae* 566
RW *Aurigae* 566
SS *Aurigae* 566
SX *Aurigae* 566
Y *Camelopardalis*, elements 244
XX *Cancri* 566
151.1907 *Cancri* elements 507
40.1910 *Cancri* 441
SY *Cassiopeiae*, New elements and light curve of 629
RR *Ceti*, 122.1906, light curve 313
39.1910 *Cephei* 441
AB *Cygni* 566
28.1910 *Cygni*, Algol type, light curve 373
33.1910 *Cygni* 374
35.1910 *Cygni* 374
158.1908 *Draconis* 125
17.1909 *Draconis* 245
43.1909 *Draconis* 53, 189, 244, 245
38.1910 *Draconis* 441
42.1910 *Draconis* 441
51.1908 *Geminorum* 244
54.1908 *Geminorum*, elements 507
u *Herculis* 125
176.1907 *Herculis*, elements 188
36.1910 *Herculis* ..... c 374
37.1910 *Herculis* 374, 507
RS *Lacertae* 566
RT *Lacertae* 566
34.1910 *Lacertae* 374
95.1910 *Leonis Minoris* 628
55.1908 *Lyncis*, elements 507
ST *Pegasi* 566
46.1909 *Pegasi* 189
1.1910 *Pegasi* 190
2.1910 *Pegasi* 245
3.1910 *Pegasi* 245
4.1910 *Pegasi* 245
5.1910 *Pegasi* 245
RV *Persei*, elements 244, 566
RY *Persei*, elements 244
ST *Persei*, elements 244, 566
45.1909 *Piscium* 189

Variable Stars *(Continued)*
62.1907 *Scuti*, light curve 372
26.1910 *Scuti* 373
27.1910 *Scuti* 313
RV *Tauri* 566
SV *Tauri* 566
41.1910 *Tauri* 441
RX *Ursae Majoris* 566
44.1909 *Ursae Majoris* 126
16.1908 *Vulpeculae* 189, 244
Z *Vulpeculae* (26.1900) 53
